Wizard Setup

The configuration wizard will pop up after start-up, please follow the steps below to finish configurations.

Wizard Setup

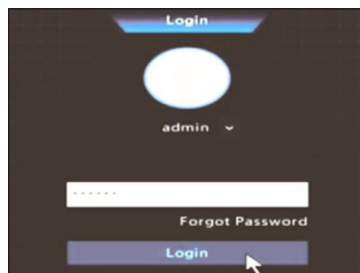

1. Select language

2. Login system with default account (User name: **admin** Password: **123456**)

To prevent your system from being hacked, please set up a password for system for the first time.

Tips: Write down your password on a notebook in case you forget it!

A screenshot of a 'Change Password' dialog box. It contains four input fields: 'Username' with 'admin', 'Old Password' with six dots, 'Password' with eight dots and a green 'Strong' indicator, and 'Confirm' with six dots. Below the fields is a text block: 'A strong password is recommended: at least 8 characters including uppercase and lowercase letters, digits and special characters (except / \ : * ? ' " < > | %).' At the bottom are 'OK' and 'Cancel' buttons.

3. Set a Pattern to unlock your system (you can **skip** if you don't need pattern!)

(you can skip if you don't need pattern)

4. Click **Next** to setup time zone

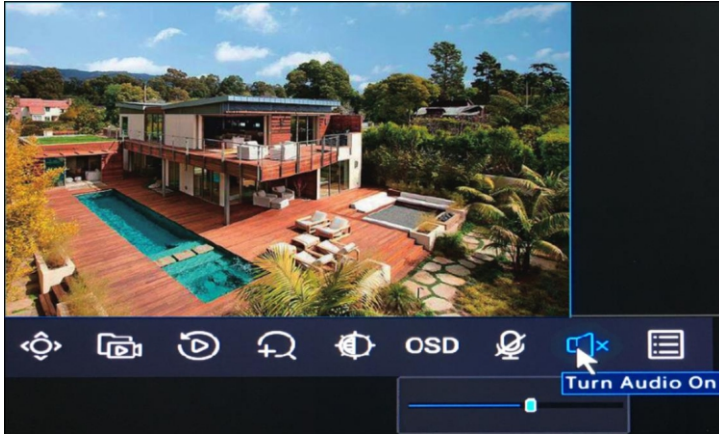

5. TCP/IP setup (network configuration). Please check in **Enable DHCP**

How to Play Audio?

Please click on the channel to select the camera, then click the speaker icon  to play audio.

Note

1. If your monitor does not come with a speaker, or does not support audio input via HDMI, it may fail to output audio;
2. Some cameras do not support audio.

Name Your Cameras

Please click on the channel to select the camera, then click the OSD to edit camera name.

Please make sure you've connected your NVR to the router directly with an Ethernet cable.

1. Download “**Guard Viewer**” on your mobile phone from Apple App Store or Google play;

You can also scan the QR code below to download the mobile app.

Guard Viewer

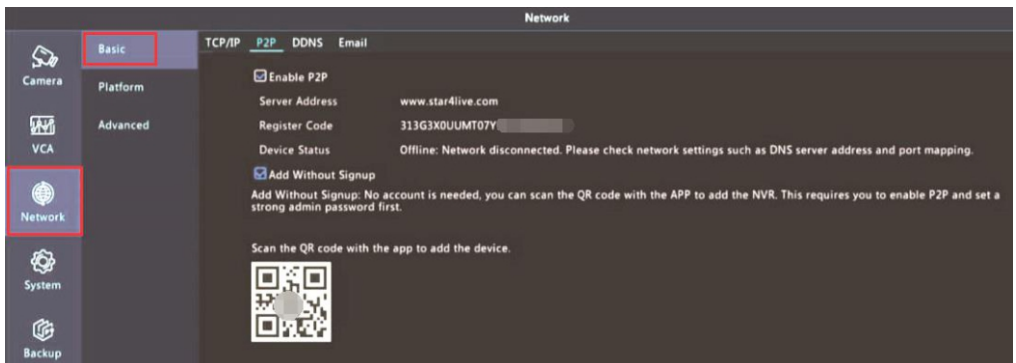

For iPhone

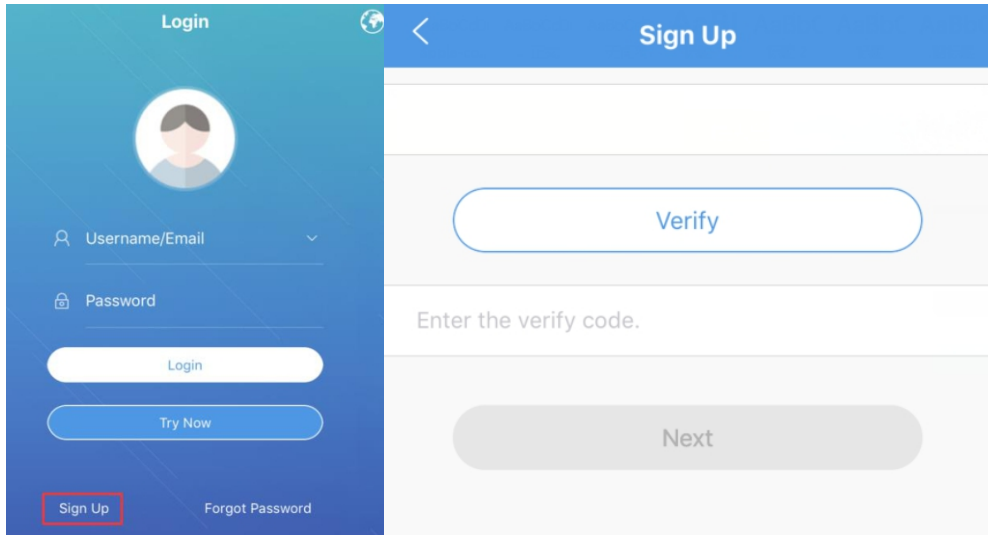

For Android

2. Go back to the monitor which is connected with your NVR Box. Please right click your mouse on the monitor and choose **Main menu→ Network→ Basic→ P2P**, make sure **Enable P2P** and **Add Without Signup** are checked in.

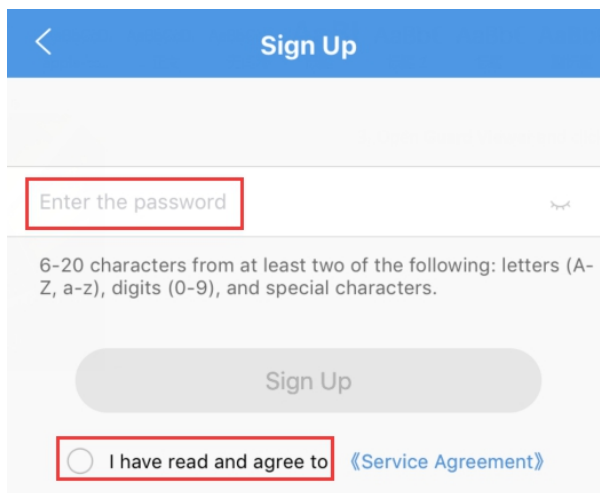

3. Open **Guard Viewer** and click **Sign up** to register an account.

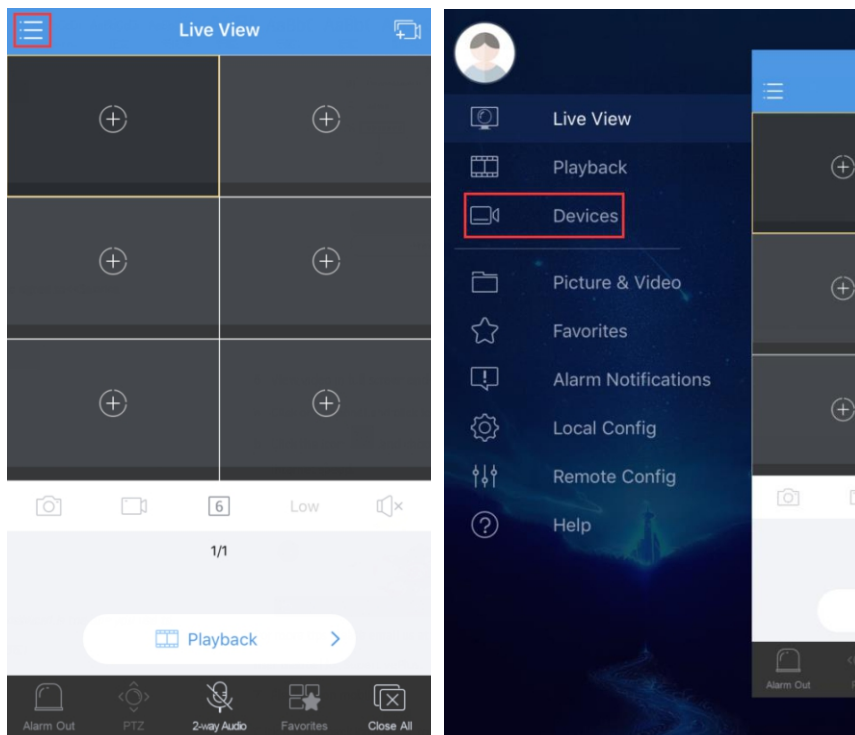

4. Type in your E-mail address and click **Verify**. Then type in the verify code you received in your email and click **Next**.

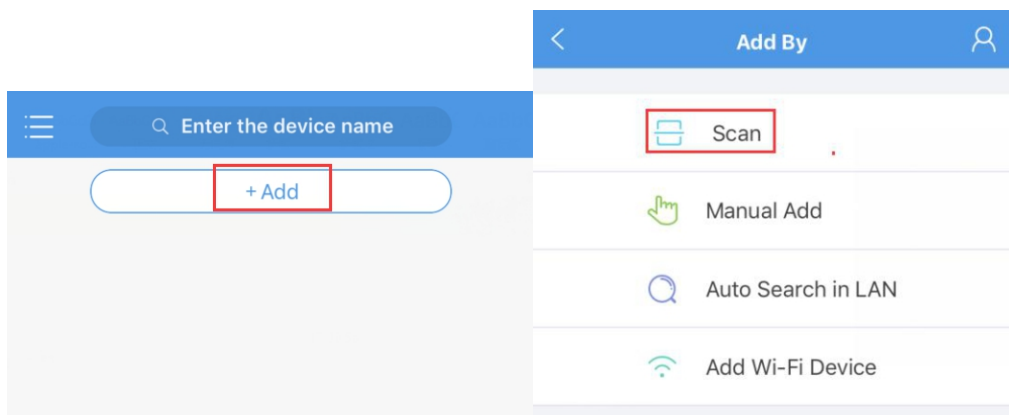

5. Set a password for your account and check in **I have read and agree to** <<Service Agreement>>. Click **Sign Up** to register account.

6. Click  on the top left and choose **Devices**

7. Click **+Add** and **Scan** to scan the QR code on the monitor which is connected with your NVR system (Please right click your mouse on the monitor and choose **Main menu**→**Network**→**Basic**→**P2P** to get the QR code).

8. Type in a name of your device and click  on the top right corner to save the device.

Sharing Records

Select	No.	Device Name	Share To	Email	User Role	Valid Until	Description
No sharing records							

e. Input the **Register Code** and set a name for your device. Click **Add** to add device.

*(How to get Register Code? - please right click on the monitor which is connected with your NVR system and choose **Menu-> Network-> Basic-> P2P** to get the register code)*

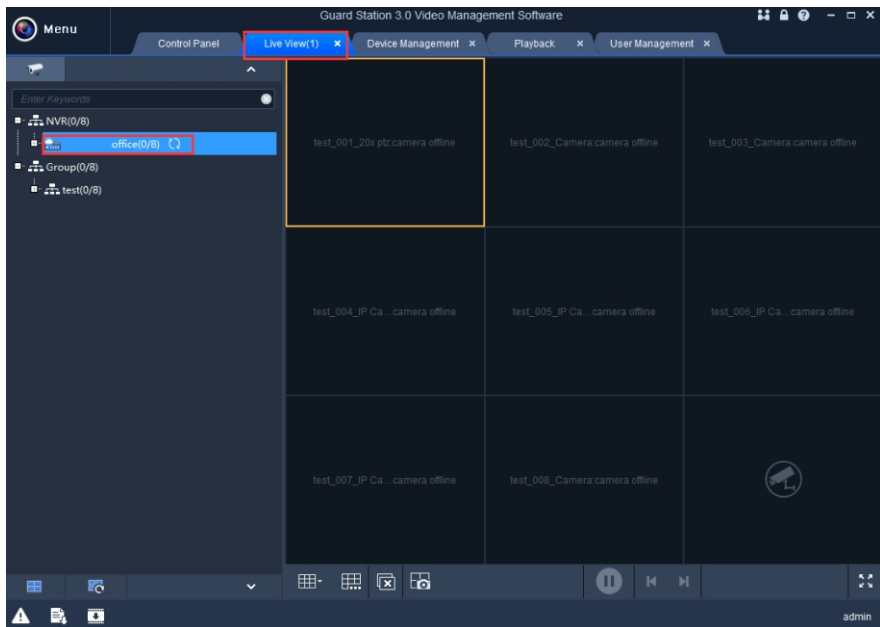

The image shows the 'Star4Live' web interface for adding a device. The header includes the 'Star4Live' logo, a 'Welcome eusupport' message, and links for 'Exit' and 'Help'. Below the header are tabs for 'Device List' and 'Org List', along with '+ Add Org' and '+ Add Device' buttons. The 'Add Device' section contains a form with the following fields: 'Register Code' (pre-filled with '313G3X0UUMT07YDF'), 'Device Name' (pre-filled with 'office'), and 'Org Name' (pre-filled with 'root' and a 'Select' button). At the bottom of the form are two buttons: 'Add' (highlighted with a red box) and 'Back'.

f. Go back to your PC client software **Guard Station** and login with the account you registered.

The image shows the 'Guard Station 3.0 Video Management Software' interface. The 'Device Management' tab is active, showing 'Login' and 'Register' buttons. A 'Cloud Login' dialog box is open, containing a 'Username' field (pre-filled with 'support@.com', highlighted with a red box), a 'Password' field (pre-filled with '*****', highlighted with a red box), a checked 'Auto Login' checkbox, and links for 'Apply for a new account' and 'Forgot Password?'. A 'Login' button (highlighted with a red box) is at the bottom right of the dialog.

g. Go to Live Preview page and double click the device to view video

For audio cameras, please move mouse to the channel, an icon bar will show up, then click the speaker icon  to play audio.

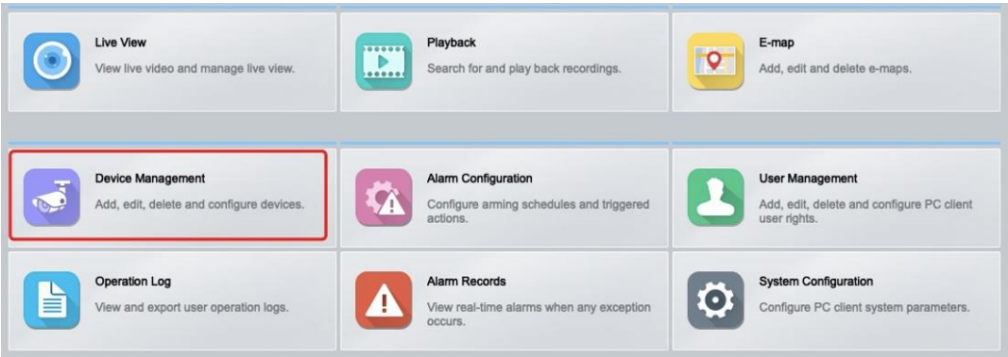

MAC PC: Manually add via serial number

a. Launch Guard Station, login with default account. (User name: **admin** Password: **123456**)

b. Click **Device Management** to add device

c. Click **Cloud Device** and **Register** to register a cloud account (*If you've already registered an account on your mobile app **Guard Viewer**, please login with the account directly*).

d. Type in user name, password, email address and the verification code and click Sign up to sign up an account.

Recording Setup

please right click your mouse on the monitor which is connected with your NVR system and choose **Menu-> Storage-> Recording** to set up recording

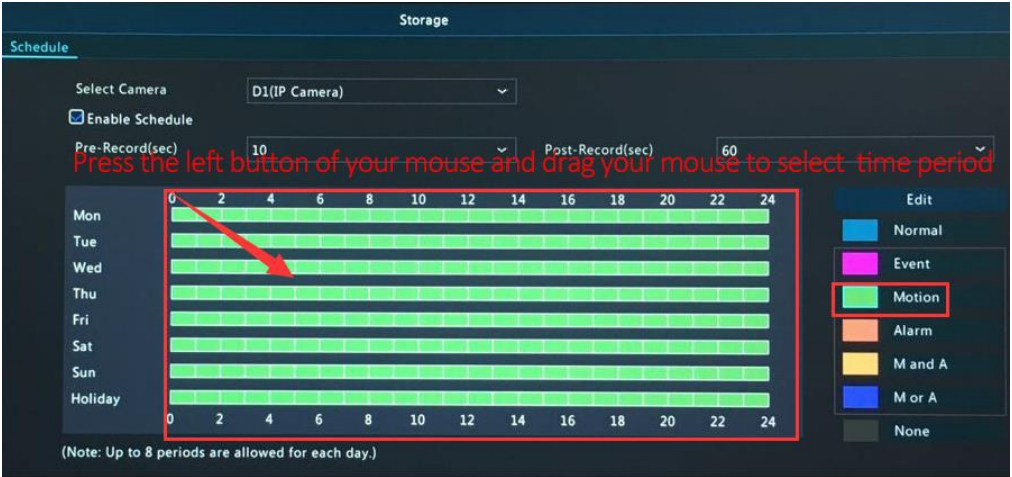

a) Normal Recording (24*7 Full Time Recording + Motion Recording)

This is the default record mode. The system will record continuously. When you check the recording in playback page, it will mark the motion recordings in orange. In this mode you won't miss any moment.

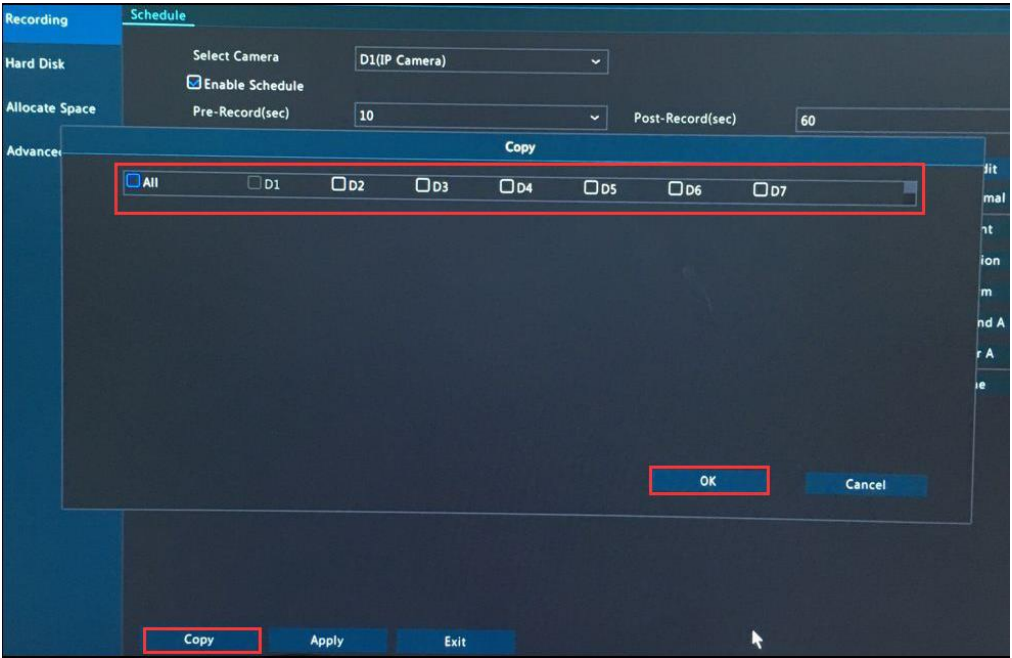

b) Motion Recording

1.Click Motion on the right side, then press the left button of your mouse and drag your mouse to select time period.

2. Click **Copy** on the lower left and choose **All** and **OK** to copy settings to all the channels.

Set Motion Area

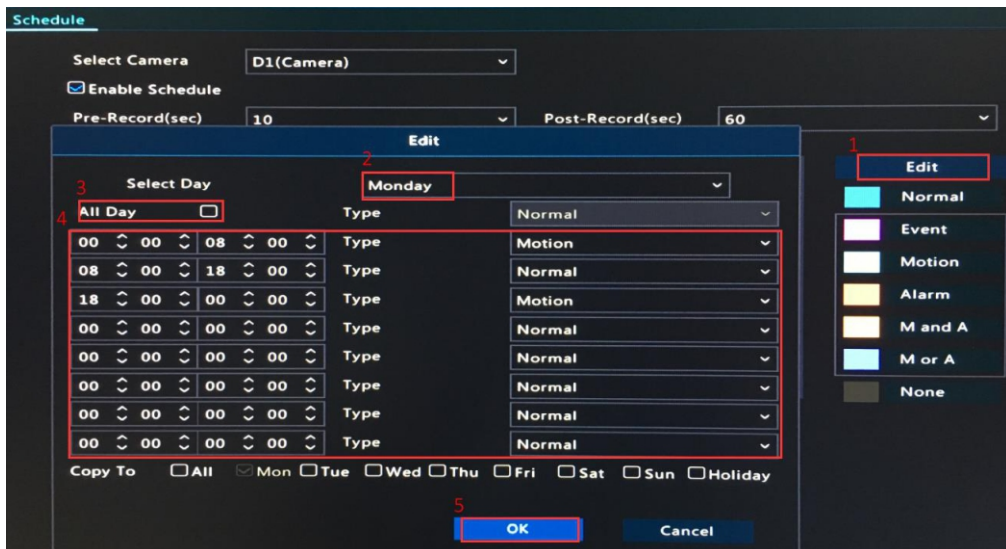

1. Please right click your mouse on the monitor and choose **Main Menu**→ **Alarm**→ **Motion**.
2. Select a camera and click **Clear All**, then press the left button of your mouse and drag your mouse on the image to select motion area.

3. Click **Apply** to save changes.

c) Scheduled Recording

1. Click **Edit** on the right side.
2. Select a day.
3. Uncheck **All Day**
4. Manually set time period and choose record mode for each time period.
5. Click **OK** to save the changes.

7

Video Playback

a) Playback on NVR

1. Right click your mouse on the monitor and choose **Playback**
2. Select camera and date on the left side.
3. Click the play icon  to playback.

b) Playback via IE browser

- 1. Type in www.star4live.com in your IE browser bar and login with your account (If you didn't register an account before, please click **Sign up** and follow the **Step-c to Step-e** on **page 11** to register an account and add device).
- 2. Click on **Access** and go to **Playback** page, then select camera and date on the left side, click play icon  to playback.

c) Playback via PC client software Guard Station

1. Open your PC client software, go to **Control Panel** and click **Playback**

2. Select Recording Playback mode (default is Normal Recording Playback).

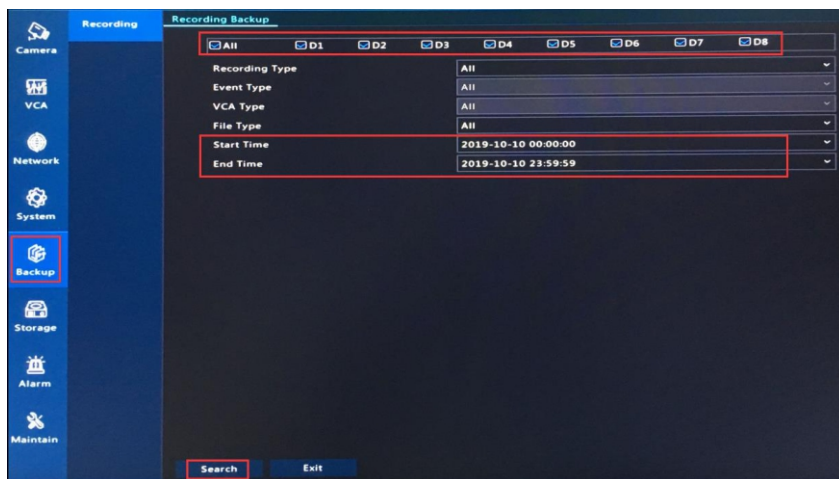

3. Check in your device and select date, click **Search** to playback.

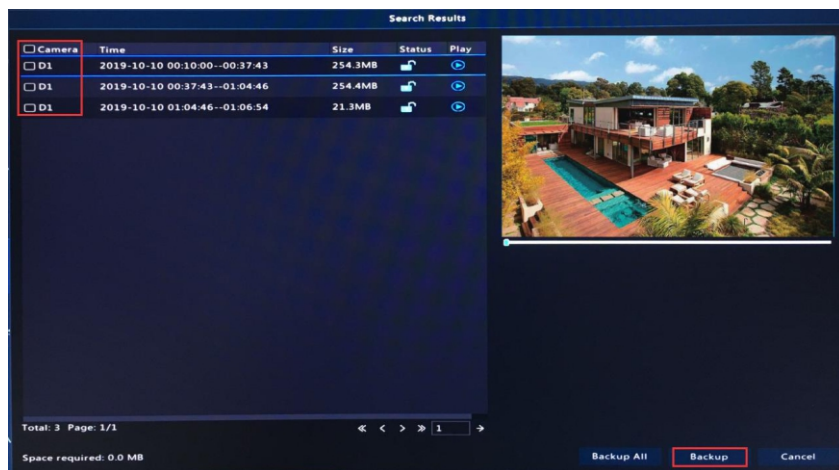

Attention: Please use **“PotPlayer”** for windows PC and **“VLC”** for MAC to play the video you back up from the NVR system.

a) Backup on NVR

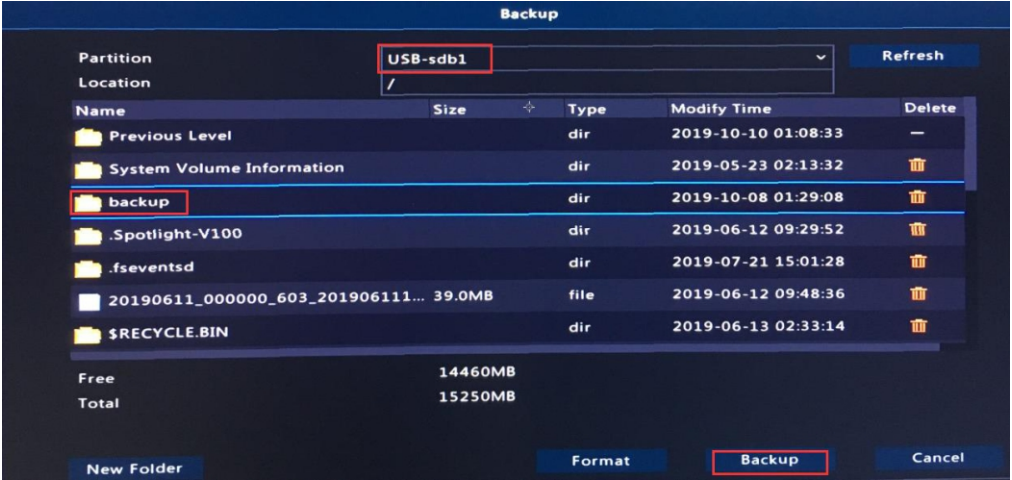

1. Insert a USB disk into the NVR USB port. Right click your mouse on the monitor and choose Main Menu-> **Backup**; Select camera, date and time, then click **Search**.

2. Then a window will pop up, click **Backup** to continue.

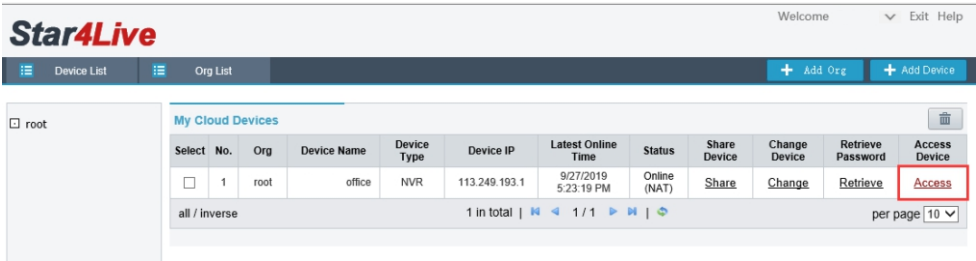

3. Choose USB disk, select a folder and click **Backup** to back up video.

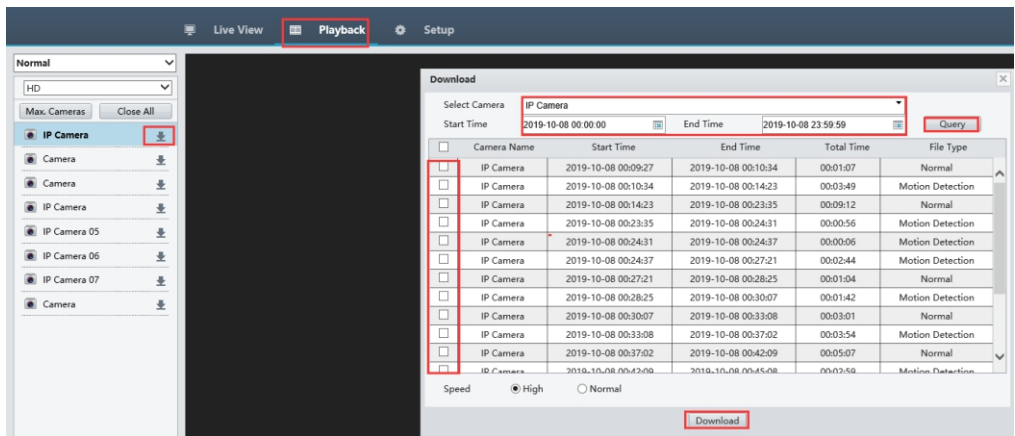

b) Backup via IE browser

1. Run Internet Explorer as administrator, type in www.star4live.com in your IE browser bar and login with your account (If you didn't register an account before, please click **Sign up** and follow the **Step-c** to **Step-e** on page 11 to register an account and add device).

2. Click on **Access** and go to **Playback** page.

3. Click download icon  behind the camera and select camera, date and time. Then click **Query**. Check in the files you want to back up and click **Download** to back up video.

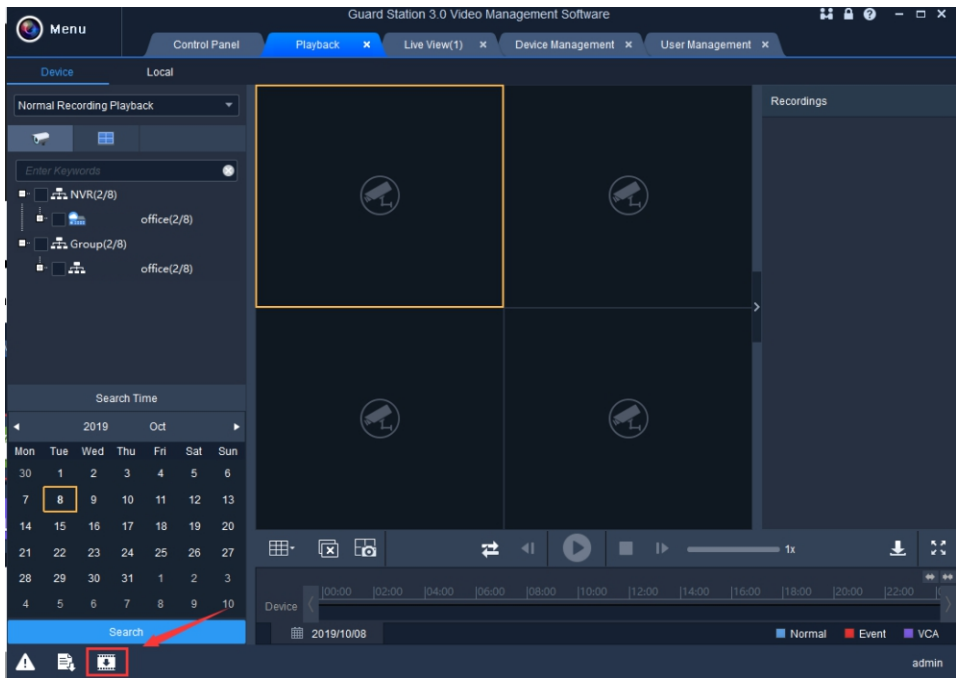

c) Backup via PC software Guard Station

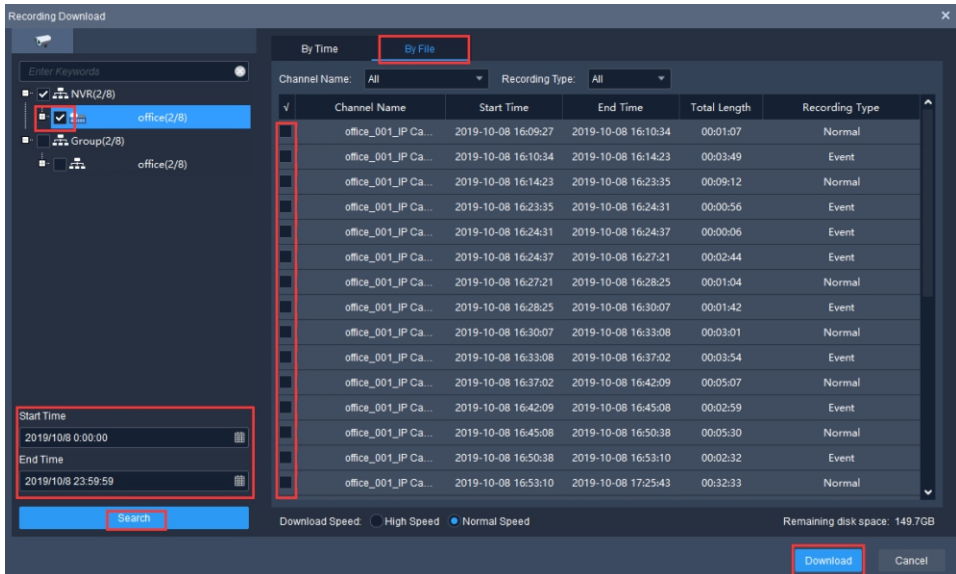

1. Open your PC client software, go to **Control Panel** and click **Playback**

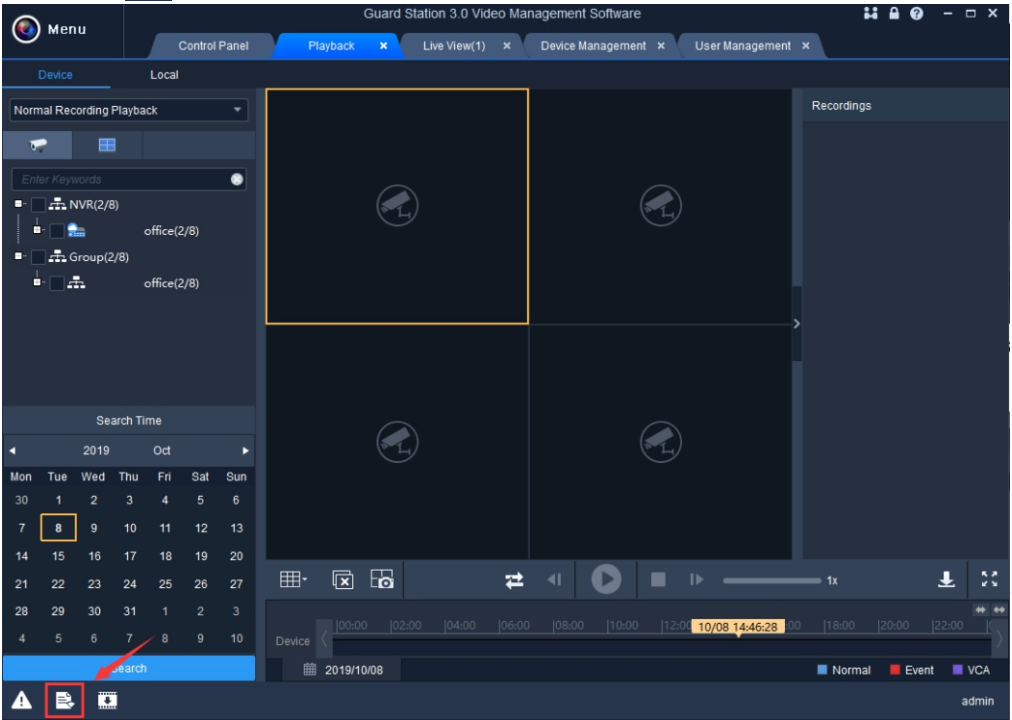

2. Click  on the lower left corner.

2. Click on **By File**, check in your device, select time and click on **Search**. Then select files and click **Download** to back up video.

4. Click on  on the lower left corner to check the downloading process.

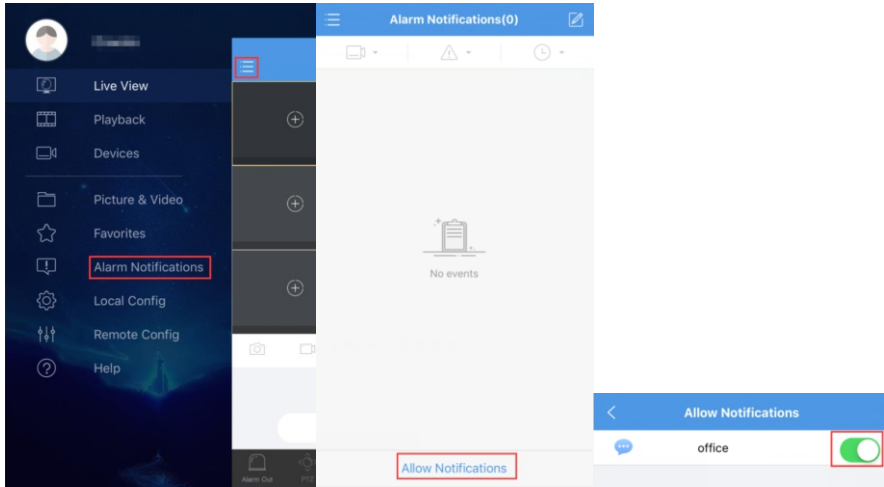

5. Click on  to open the folder and find the files you downloaded.

Mobile App alarm

1. Open mobile APP Guard Viewer, click  on the top left corner and choose **Alarm Notification**→**Allow Notification**, enable notification of your system.

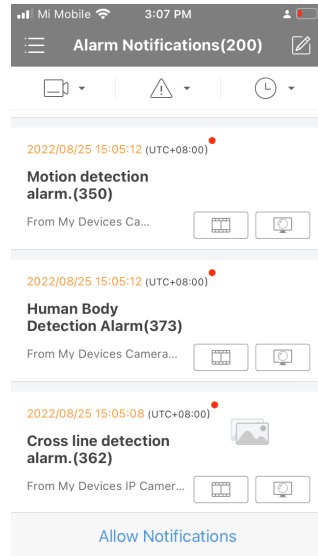

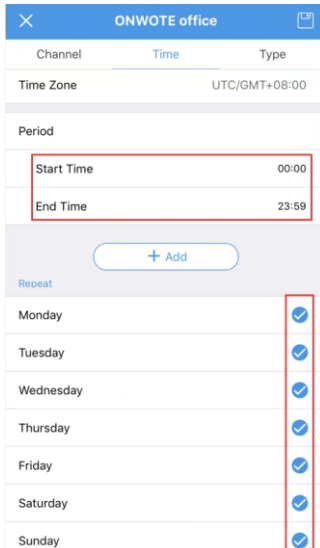

Set Alarm Schedule for App Alerts (default is 24*7 for all the cameras, all type of alerts)

Click on **Advanced Settings**→**Channel** to select camera;

Click **Time** to set Start time & End time (click **+Add** to add more time period) and select day;

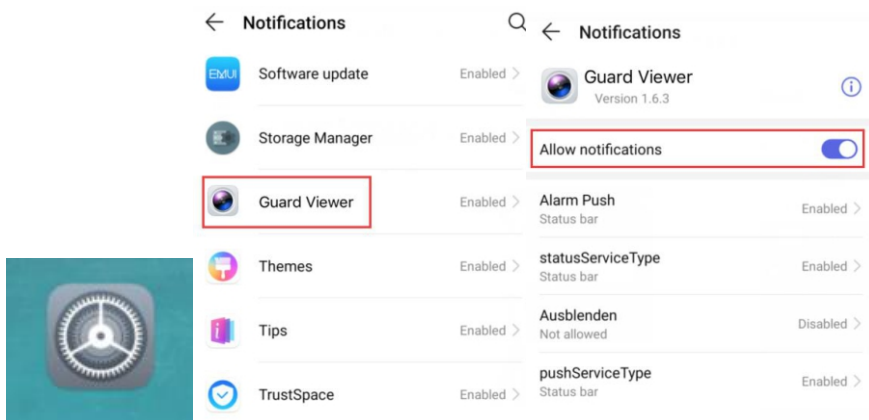

Click **Type** to select alarm type and click on  the top right corner to save the schedule.

a. iPhone: **Me >General >Push Notification**

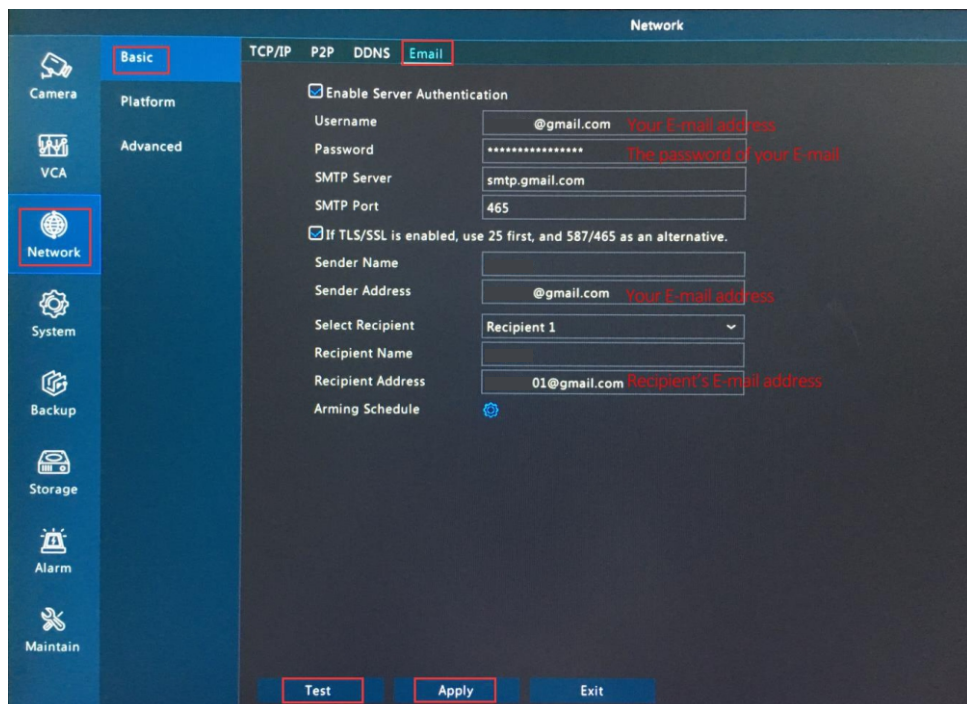

b. Android phone: **Settings-> Notifications-> Allow Notifications.**

E-mail Notification

1. Right click your mouse on the monitor which is connected with your NVR, choose **Main menu**→ **Network**→ **Basic**→ **Email**. Type in the information of your sender and recipient and click **Apply**.

(The info on the picture above is just an example)

Click **Test** to verify the email settings. (please check with your email supplier if you have troubles in email SMTP configuration)

Set Alarm Schedule for Email Alert (default is 24*7 full time)

Click  behind Arming Schedule, select day, set time period and click Apply and OK to save schedule.

The 'Arming Schedule' window shows a table for setting start and end times for each day of the week. The 'Monday' tab is selected. The table has 8 rows, each with a 'Start Time' and an 'End Time' column, each containing hour, minute, and second fields with up/down arrows. Below the table, there are checkboxes for 'Copy To' (All, Mon, Tue, Wed, Thu, Fri, Sat, Sun, Holiday) and 'Apply', 'OK', and 'Cancel' buttons.

	Start Time			End Time		
1	22	00		08	00	
2	08	00		18	00	
3	18	00		22	00	
4	00	00		00	00	
5	00	00		00	00	
6	00	00		00	00	
7	00	00		00	00	
8	00	00		00	00	

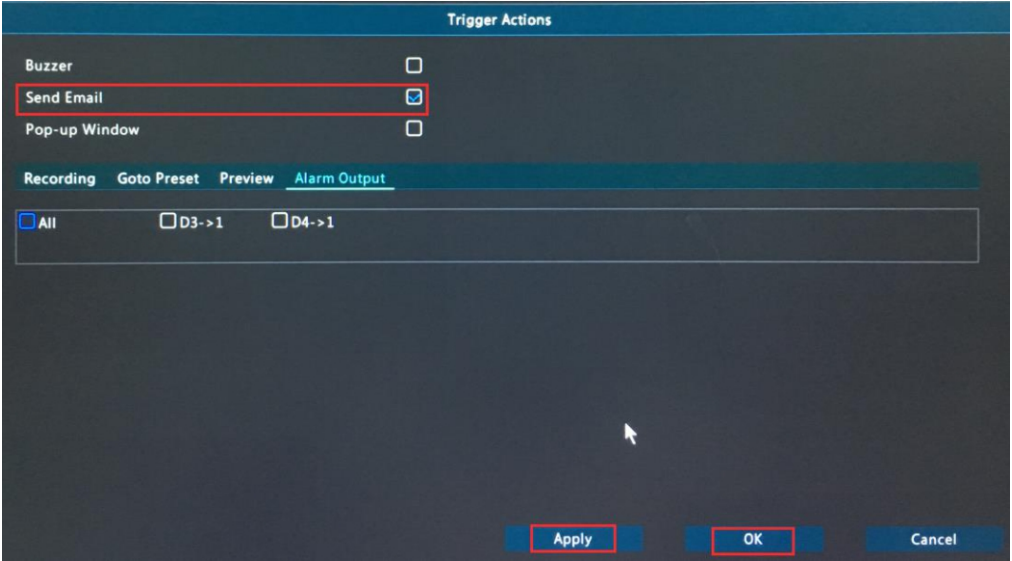

Check in day behind **Copy To** to copy schedule to other day.

2. Click **Alarm**→ **Motion**, select camera and click  behind **Trigger Act**

The 'Alarm Motion Detection' window shows a camera selection dropdown set to 'D3(Camera)'. It includes a video preview window showing a pool area. To the right, there are settings for 'Trigger Actions' (with a gear icon), 'Arming Schedule' (with a plus icon), and a 'Sensitivity' slider. At the bottom, there are 'Full Screen' and 'Clear All' buttons. The 'Alarm' icon in the left sidebar is highlighted with a red box.

2. Check in **Send Email** and click **Apply** and **OK**.

*Tips: You just enabled **Send Email** for the selected camera, please select other cameras and do the same steps to enable **Send Email** for other cameras.*

2. Please take a photo of the page and email it to to get security code to reset your password.
